CYBER SECURITY

ENABLING YOUR BUSINESS THROUGH PARTNERS YOU CAN TRUST

YOUR CYBER SECURITY PARTNER

Chenega and Cyphra have extensive experience in delivering cyber security projects across a wide range of the public sector such as, health & central government, & private sector clients including banking, manufacturing, & petrochemical companies. We can help structure & implement strategic Information Security programs for your business, or enhance existing tactical projects by providing the appropriate knowledge & expertise. With a true partnership ethos, we pride ourselves on building long-term trusted relationships with our clients that deliver real business benefits and return on investment.

OUR TEAM

Chenega and Cyphra have numerous and extensive security certifications: CEH, CISSP, CISA, and CCP, multiple technology vendor certifications, Cyber Essentials +, Cyber Essential Certification Body, IASMEGold, Certified Forensic Investigation Practitioner (CFIP). Chenega and Cyphra also have well-established processes and practical experience managing diverse and complex environments

Chenega and Cyphra's structured methodology will provide your organisation with insight and implement mitigation strategies that are appropriate to your requirements and business context.

CYBER SECURITY IS ESSENTIAL FOR YOUR BUSINESS IN A DIGITAL ECONOMY

In today's open and globally interconnected digital economy, information, and the underlying IT systems are key to business innovation, collaboration, productivity, competitiveness and customer engagement. Corporate information is put at increasing risk as organisations access and share more information across the internet with their mobile staff, partners, suppliers and customers whilst at the same time utilising a rapidly changing technology base.

METHODOLOGY AND SOLUTION

Analyse the risks to your information and how to manage them effectively.

Design cyber security solutions tailored to meet your business needs.

Pro-actively manage your security infrastructure.

Implement and integrate security controls into your technical and process environment.

Assess the on-going effectiveness of your controls through audit and security testing services.

CAPABILITIES & SERVICE OFFERINGS

In today's open and globally interconnected digital economy, information and the underlying IT systems are key to business innovation, collaboration, productivity, competitiveness and customer engagement. Corporate information is put at increasing risk as organisations access and share more information across the internet with their mobile staff, partners, suppliers and customers whilst at the same time utilising a rapidly changing technology base. The compromise of this information through deliberate attacks or accidental actions can have a significant impact on the financial standing or reputation of any organisation. It can lead to material financial impacts through the loss of intellectual property or sensitive company information, remediation costs, loss of productivity, damage to brand, and legal and regulatory costs. Chenega and Cyphra understand these challenges and work with our clients and partners to manage these risks and support business agility and growth.

PROFESSIONAL SERVICES - Our team of experts bring real world experience and provide a range of specialist security services tailored to meet each client's specific requirement. These include consultancy, solution design and Implementation, project management, compliance audits, testing, certification assessments and public sector accreditation services.

TECHNICAL SOLUTIONS - We supply, implement and support a range of products from leading security vendors to ensure that we provide technical security solutions which meet the individual risk profiles of our clients and that integrate with their current IT environment.

MANAGED SERVICES - Our managed security services provide 24 x 7 support and management of our clients' security infrastructure, ensuring the ongoing operational effectiveness of their security investments. Our experienced security professionals provide essential expertise and will act seamlessly as an extension of your organisation.
